

Bosnian Pyramid Expeditions

Archaeological Tours & Volunteering

2019

Geo-Archaeological Volunteer Program

Schedule

Nine Archaeological Volunteer Days

Staff

Ajdin Ahmetspahic, Guide Coordinator & Host

Richard Hoyle, Foundation's Field Geologist

Marie-Sophie Gristi, Volunteer Field Coordinator

Volunteering Schedule

09:00 – Day Start

15:00 – Day End

Archaeological & Geological Volunteer Program

Volunteering Days at Ravne Tunnels

Underground Labyrinths at Ravne: continuing excavation and removal of conglomerate deposit and soil to lengthen and uncover the existing network of labyrinth passages and energy rooms

Archaeology orientation and workshop:

Orientation – introduction to the archaeological sites.

Workshop – (Laboratory) classification, analysis and recording
(Museum) archiving and public displays

Volunteering Days at the Bosnian pyramid of the Sun

Archaeological site; Pyramid of the Sun: one of numerous archaeological sites on the Bosnian Pyramid of the Sun. Removal of accumulated top soil from concrete blocks. Extension of existing trenches to reveal pyramid concrete and careful excavation of organic materials between and underneath concrete blocks to give us greater insight into the age of the pyramid complexes.

Geology seminar and workshop

Workshop – Introduction to geology; classification and analysis of geological material from Ravne labyrinth tunnels; first day
